

TVS Middle School Summer Enrichment 2023

Hello Village School Parents of Rising 6th, 7th, and 8th Graders,

The following work is assigned to all 2023/2024 middle school students, to be completed over the summer break and due at the start of the school year.

1. Complete the Summer Reading Assignment

- [For rising 6th-grade students](#)
- [For rising 7th-grade students](#)
- [For rising 8th-grade students](#)

2. Earn a minimum of 80% on the ALEKS Math Assignment online

- All returning students have received a username and password and completed their initial assessment in their math class.
- Families new to TVS and rising 6th-grade students will receive a letter in the mail with their child's ALEKS information.

*All returning Village School students need to complete the summer enrichment assignments by **August 18, 2023**. If your child is new to TVS, they will have until **October 1, 2023**, to reach the required 80% goal on their ALEKS summer enrichment work and complete the reading assignment. All students will receive a summative grade in Quarter 1 for completing both the reading and math assignments.*

Thank you for your commitment to your student's academic excellence! Please feel free to reach out to Mr. Jeff Cavallo (jcavallo@tvsnaples.org) or Mrs. April Butler (abutler@tvsnaples.org) with any questions!

With Kindness,

April Butler

Assistant Head of Middle School
